

This is a detailed aerial photograph of a region in Mexico, likely the Tula area. The map shows a complex network of agricultural fields, primarily in shades of brown and tan, indicating different crops or land use patterns. A prominent river, the Tula River, flows through the landscape, its course marked by a winding blue line. The river originates in the upper right and flows towards the lower left. Several smaller tributaries are visible. The map is overlaid with a grid of blue lines, possibly representing administrative boundaries or a coordinate system. A scale bar at the bottom left indicates a distance of 0 to 2 kilometers, with a scale of 1:25,000. A north arrow is located in the top right corner, pointing towards the top of the image. The overall terrain appears to be a mix of flat agricultural land and more rugged, hilly areas, particularly in the upper right and lower right sections.
